Mobile (AU): +61 417 198 498

## Proficiencies

Sound Design

Mix Engineering (ITB)

*Pro Tools, Ableton Live, Logic Pro & Reaper*

Composition

Planning, Production & Facilitation

Sampling & Synthesis

Surround Sound Mixing & Composition

*5.1 & 12.4.2 DTS*

## Education

**2016-2020** Bachelor of Music Technology  
*Awarded at Griffith University's Queensland Conservatorium*

**2014** Queensland Certificate of Education  
*Awarded at Mountain Creek State Highschool*

**2013** Certificate IV in Sound Production  
*Awarded at Nambour Institute of TAFE*

## Interests

- Writing Music
- Playing Guitar
- Guitar Modification
- Rugby Union
- Cinema
- Social Sports

## Languages

- English (Proficient)
- German (Elementary)

## Additional Information

- Dual Australian & New Zealand Citizenship
- QLD State Issued Drivers Licence
- 6 Years Hospitality & Retail Experience

## Projects & Employment

**2020** THRILLS CO. – The Painter (Short Film)  
*Composer*

For this project, I was hired as a replacement composer close to the date of the Picture Lock. I had 1 week to compose the music for a 5-minute horror film. I had multiple meetings with the director, discussing ideas and concepts in the short film that he wanted to be enriched or accentuated by the music. We worked hard to maintain a balanced duality of energy between sound and picture, resulting in firm control of both pacing and tonality. This project is currently awaiting release, decisions are being made by the author to release as either an online premiere, aligned with a brand campaign, or to take it to film festivals.

**2018** Dezmond – Want It All (A COLORS SHOW)  
*Instrumental Mix Engineering*

I initially met Dezmond through assisting with vocal mixes and basic mastering on his productions while I was still in the early stages of my degree. This relationship helped us both vastly, as Dezmond was afforded access to engineering for his releases, and I was able to gain valuable real world mix engineering experience. Dezmond would provide a single stereo file of his instrumental, leaving me isolated stems only for his vocals. I did vocal mixes for 2 of Dezmond's EP's (Selected tracks on Wrath & Crimson Rose 2008) & also worked on Singles (Want It All, Taste, Elevator Music, Bad Man etc). Dezmond was approached by COLORS to perform at their studios in Berlin. Dezmond attained full stems for the song so that he could adjust the mix to his liking, the revised version I worked on was the version used in the COLORS SHOW online presentation.

**2017-2021** Lagardere Travel Retail (Tech2go)  
*Headphone Sales Specialist*

At Tech2go, I was tasked with selling consumer grade noise cancelling & high-fidelity headphones to Qantas Club members and general travellers. Here, I'm valued for my in-depth understanding of sound & audio (developed through my degree) and well researched knowledge of our stocked brands. I have a great ability to thoroughly articulate the specifications & advantages / disadvantages of a product in a manner that's clear to understand for our customers.

**2021** TRL – Touch Rugby League  
*Match Official / Referee*

At TRL, I was tasked with officiating games, dealing with player conflict & maintaining brand standards. This position requires a near flawless understanding of the rule book and the ability to deal with & relieve high adrenaline conflicts. Referees are highly accountable and responsible for ensuring the match remains enjoyable for all participants by maintaining balance and building a rapport of trust and confidence with the players.
